

Adonis Puentes

Vocalist

Adonis Puentes is a name that resonates with warmth and rhythm. Born in the vibrant town of Artemisa, Cuba, music flows through his veins, thanks to his father, Valentin Puentes, a respected musician and teacher. It's no surprise that Adonis picked up a guitar at just six years old, joining his father's children's ensemble where he first learned to express himself through music.

Fast forward to 14, and Adonis was crafting his own original songs. His early creations were just a taste of the poetic and sensuous song cycles that would later define his independently released albums. In 1998, Adonis took a big leap and moved to Canada. But instead of leaving his passion behind, he embraced it wholeheartedly. He continued to refine his craft, composing, performing, and touring, sharing his unique sound with audiences far and wide.

With the highly anticipated release of his third self-composed album in late 2025, fans can look forward to another chapter in his evolving sound. This will be his fifth independent release.

With every note, Adonis invites listeners on a journey that reflects his rich cultural roots and personal experiences, making his artistry feel both intimate and universal. Whether he's singing a soft ballad or a lively tune, you can feel the passion and authenticity in every performance. If you haven't yet discovered his music, you're in for a treat—Adonis Puentes is a true gem in the world of music!
